Onderwerp: URGENT APPEAL REGARDING FLAGRANT CORRUPTION AT THE HIGHEST LEVEL AND THE UNDERMINING OF THE RULE OF LAW IN UKRAINE!!!

ALL-UKRAINIAN PUBLIC ORGANISATION "LEGAL EQUALITY"

To the Members
of the States General
of the Kingdom of the Netherlands

Distinguished Members
of the States General of the Kingdom of the Netherlands!

First of all, for 1700 days of terrible and brutal war, we want to sincerely thank You, Your Country and the People of the Kingdom of the Netherlands for helping the Ukrainians and the state of Ukraine in this difficult time of unprovoked armed aggression by Russia!

We would like to emphasize and draw your attention to the fact that the information and facts that are systematically presented in the world media are the honest truth and realities of modern Ukraine, no matter how Volodymyr Zelensky tries to justify himself, his inner circle and subordinates continue to profit from corruption and behave brazenly, and in Ukraine itself, the rule of law is completely collapsing!

Although our organization's team, its leader, and its Honorary Chairman—attorney Yaroslav Zakharchenko—have faced and continue to face threats (notably from the Office of the President of Ukraine, the Security Service of Ukraine, and the State Bureau of Investigation) due to our persistent appeals to you—the international community—regarding high-level corruption and lawlessness in Ukraine, we will not be silenced by such tactics! It is deeply distressing that international partners, through their silence, are effectively turning a blind eye to high-level corruption in Ukraine involving government officials—specifically, the inner circle of Ukrainian President Volodymyr Zelenskyy. **Silence kills! Do not remain silent—it only makes the situation worse!**

The Constitution of Ukraine provides clear answers regarding the term of office of the President of Ukraine and the possibility of holding elections: https://zakon.rada.gov.ua/laws/show/254%D0%BA/96-%D0%B2%D1%80#Text.

According to Article 103 of the Constitution, the President of Ukraine is elected by the citizens of Ukraine for a five-year term. Article 108 outlines the grounds for the termination of the President's powers. Article 109 stipulates that the resignation of the President of Ukraine takes effect from the moment the President personally announces their resignation at a session of the Verkhovna Rada of Ukraine. Under the requirements of Article 112, in the event of the early termination of the President's powers, the duties of the President of Ukraine are assumed by the Chairman of the Verkhovna Rada of Ukraine.

An analysis of the provisions of the Constitution of Ukraine reveals that there is no explicit prohibition against holding elections during martial law. Anyone claiming otherwise is either deliberately stating an untruth or is unfamiliar with the provisions of Ukraine's supreme law. The only obstacle is Article 19 of the Law of Ukraine "On the Legal Regime of Martial Law"

(https://zakon.rada.gov.ua/laws/show/389-19#Text)—a legal instrument that holds a lower status than the Constitution! In its Decision No. 5-rp/2014 of May 15, 2014, the Constitutional Court of Ukraine clarified that the term of office of the President of Ukraine is 5 years (https://zakon.rada.gov.ua/laws/show/v005p710-14#Text); **this five-year term is the sole constitutionally established term for which the President of Ukraine is elected—without any exceptions whatsoever!**

According to recent surveys of Ukrainian citizens, the issues of greatest concern to respondents are corruption within the government (50%) and large-scale missile and drone attacks (40%) - https://interfax.com.ua/news/general/1210873-amp.html, https://www.kiis.com.ua/?lang=ukr&cat=reports&id=1636&page=1. Other top concerns include a lack of professionalism and incompetence among government officials (30%), low wages and pensions (28%), the activities of the Territorial Recruitment Centers (TCCs) (24%), rising prices (23%), and the situation at the front (21%). Other issues were cited less frequently. These findings come from a survey conducted in September 2026 by the Kyiv International Institute of Sociology. Furthermore, a total of 64% of respondents identified either "corruption within the government" or "incompetence of the government" as a concern. In other words, when comparing the factor of the war against the factor of dissatisfaction with the government (due to corruption or incompetence), the latter was mentioned somewhat more frequently. Respondents were also asked whether Ukrainian President Volodymyr Zelenskyy bears personal responsibility for the corrupt actions of his inner circle. The majority of Ukrainians—72%—assert that President Volodymyr Zelenskyy bears personal responsibility for the corrupt actions of his inner circle, while 25% do not believe he bears such responsibility, the report states.

On October 28, 2026, former Prosecutor General of Ukraine Ruslan Kravchenko stated that unlawful, violent actions were being prepared against him in the Republic of Austria, involving military personnel from the Main Directorate of Intelligence of the Ministry of Defence of Ukraine. Anti-corruption bodies and the Office of the President of Ukraine are also allegedly involved in this - https://www.dw.com/uk/kravcenko-zvinuvativ-gur-nabu-i-op-u-pidgotovci-nasilnickih-dij-proti-nogo/a-79785528.

Unfortunately, our Organization is not surprised by Mr. Kravchenko's statements, as the very same things have been—and are currently being—directed against us, albeit covertly!

Particularly egregious are the actions taken by the NABU on October 21, 2026, at the workplace and residence of the Governor of the National Bank of Ukraine, Andriy Pyshnyy, as well as, specifically, the grounds upon which these actions were carried out - https://forbes.ua/money/obsuki-nabu-u-pisnogo-21102026-43163, https://youtu.be/YOHSs5QerGc?si=nwfhiX9pbaZUVrAT, https://censor.net/ua/news/4029558/obshuky-u-golovy-nbu-andriya-pyshnogo-nabu-ta-sap-provodyat-slidchi-diyi. The searches relate to the situation surrounding the "KarpatNaftoKhim" plant and the management of Sense Bank by third parties. Investigators were searching for documents concerning the unique state-owned chemical enterprise "KarpatNaftoKhim" and its joint dealings with the late Ivanchuk and the aforementioned Veselyi. According to the investigation, the crux of the matter is that a stake in the plant served as an illicit benefit for officials within the Office of the Prosecutor General (OPG), ARMA (Asset Recovery and Management Agency), and the Office of the President. No formal notices of suspicion have been issued to anyone yet.

How the 2022 case was dismantled: According to the investigation, the plant—linked to Lukoil—transferred over UAH 5 billion to the Russian Federation. A court seized 100% of

the assets, only to subsequently lift the seizure. The OPG transferred the case to a district police department in the Mykolaiv region. The Bratske District Court transferred the plant to ARMA, yet ARMA never actually took possession of the property. The investigation was halted. On December 6, 2023, the seizure was lifted. On December 1, 2023, a 33% stake in the plant—with a statutory value of UAH 765 million—was transferred to the "Herion World" fund, owned by Andriy Veselyi, a sole proprietor from Drohobych. The investigation notes this occurred "without actual payment." Since November 2024, his brother, Vasyl, has served as the Chairman of the plant's Supervisory Board, and as of 2024, he has also served as an advisor to the Supervisory Board of the state-owned Sense Bank. According to the testimonies of two witnesses, the sequence of events unfolded as follows: MP Ivanchuk, acting as a representative for the owners, sought to resolve the plant's issues. He reached out to the Governor of the National Bank of Ukraine (NBU), Pyshnyi—a former university classmate and fellow faction member. Subsequently, Ivanchuk instructed the owners that, to unblock the plant's operations, they had to transfer a stake to Vasyl Veselyi. Veselyi is "closely linked" to the Office of the President (OP) and Pyshnyi. Furthermore, Pyshnyi and Yermak have been co-founders of the NGO "Vidchu" (Feel) since 2011. Meanwhile, the plant itself is currently undergoing bankruptcy proceedings. A Cypriot entity named Fanlo—flagged with the label "Trace of Russia"—has filed claims amounting to 92% of the total debt (40 billion UAH). This "debt" was actually written off by Lukoil back in 2016, only to be transferred to Fanlo in 2017. Amidst the bankruptcy, a shipment of gasoline worth $6 million was dispatched to Dubai, with only $0.64 million paid. Outstanding wage arrears have reached 230 million UAH, while debts owed to the Kalush municipal budget stand at 239 million UAH. We also uncovered a highly intriguing connection between the bankruptcy trustee and... none other than the aforementioned Veselyi! On October 1, 2026, the parliamentary Temporary Investigative Commission (TIC) voted to issue a compulsory summons for Veselyi, who had made an urgent departure from the country on June 18 and has yet to return. Additionally, on September 24, criminal proceedings were initiated regarding potential false testimony given by Pyshnyi before the TIC. In short: a portion of the plant was signed over to Yermak's "overseer" (proxy) to prevent the entire facility from being seized, confiscated, or transferred to ARMA (the Asset Recovery and Management Agency).

According to our preliminary data, the program of the President of Ukraine Volodymyr Zelensky – Drone Deal – may also become a hotbed of corruption in Ukraine and on a global scale, only companies close to the government participate in it! This is already confirmed by a number of journalistic and law enforcement investigations into corruption and deliberate overpricing of drone purchases, especially within the framework of Ukrainian state orders, at the expense of international partners. **A major new investigation by international media serves as striking confirmation of this – «In Ukraine, fraud and waste are rewarded with more arms supply contracts» - https://www.nytimes.com/2026/09/06/world/europe/ukraine-war-weapons-fraud-corruption.html.** Secret military audits have revealed that the defense procurement system is riddled with instances of mismanagement. In 2024 alone, Ukraine lost $1.2 billion due to fraud and the inefficient use of funds. Companies secured contracts without demonstrating their capacity to supply weaponry and without possessing the necessary licenses to do so. Auditors identified 18 companies that entered into agreements despite having failed to fulfill previous obligations; six of these companies failed to execute a single contract. President Zelenskyy has been unable to bring order to the procurement system, and

the issues have reached even his inner circle. A Turkish manufacturer, Arca Defense, offered the lowest price, proposing direct shipments from the factory. However, auditors discovered that the contract was awarded to the bidder with the highest price—a subsidiary of the major Czech holding company, Czechoslovak Group. Instead of making a direct purchase, the government opted to pay the Czech company, which acted as an intermediary.

Head of an Office of the Prosecutor General unit organized "protection" for fraudulent call centers - NABU - https://www.pravda.com.ua/news/2026/09/05/8052022/ and https://www.nytimes.com/2026/09/16/world/europe/ukraine-corruption.html NABU and the SAPO have announced the exposure of a criminal organization allegedly led by a senior official from a structural unit of the Prosecutor General's Office. Its members are suspected of systematically accepting bribes from fraudulent call centers and laundering assets. **Subsequently, the now-former Prosecutor General Ruslan Kravchenko fled Ukraine under the guise of a purported official trip to PACE and, according to preliminary information, is currently hiding in the Republic of Austria (Vienna).**

NABU and the SAPO are conducting a special operation, codenamed "Forrest Gump," to expose a criminal organization that operated under the direction of high-ranking officials within the Office of President Volodymyr Zelenskyy, along with other individuals. According to preliminary findings by investigative authorities and evidence already made public, the current administration's new motto in Ukraine is: "Defeating corruption is a misguided approach. It needs to be systematized and controlled."

Since the start of the full-scale war, Ukraine has received $200 billion in direct budget funding and over $200 billion in military assistance (weapons and equipment) from international partners (over 50 countries). In total, total support from allies exceeds $400 billion (according to official data from the National Bank, the Ministry of Finance, and the President of Ukraine), not including other expenses such as humanitarian aid!

A new anti-corruption investigation by Ukrainian law enforcement agencies—NABU and the SAPO - is truly staggering in its audacity: bags of cash, security personnel from the Defence Intelligence of Ukraine (HUR), and Davyd Arakhamia. Here is what is known about the new NABU recordings: https://epravda.com.ua/power/plivki-nabu-shcho-vidomo-pro-operaciyu-forest-gamp-824776/index.amp, https://www.pravda.com.ua/news/2026/08/19/8049261/index.amp, https://www.pravda.com.ua/columns/2026/08/19/8049314/index.amp. On August 19, detectives from the National Anti-Corruption Bureau (NABU) conducted searches in the office of a Deputy Head of the Office of the President (OP) and at the headquarters of Sense Bank. Law enforcement officials dubbed this special operation "Forrest Gump." It concerns the posting of 150 million hryvnias in bail for a figure involved in the "Midas" case—former Minister of Energy and Justice Herman Halushchenko. According to NABU, in early June 2026, high-ranking officials from the Office of the President gained de facto control over the state-owned Sense Bank. One of these officials is Iryna Mudra, a former Deputy Head of the Office of the President of Ukraine. According to a woman whose voice resembles Mudra's, an "Israeli refugee named Timur" called her superior and requested that the Office of the President take control of Sense Bank. "Timur" claimed that "financial flows" and "serious money" were moving through Sense Bank. According to this high-ranking official from the Office of the President, the next individuals slated to take over the management of the state-owned bank were likely "David" and a person whom NABU refers to as the "head of a Verkhovna Rada committee." This likely refers to Davyd Arakhamia, head of the "Servant of

the People" faction, and Danylo Hetmantsev, head of the Verkhovna Rada Finance Committee.

Corruption investigation (and it only uses drones) - https://telegra.ph/Etalonne-krad%D1%96vnictvo-yak-Konotopskij-zaroblyaye-na-skazhenih-c%D1%96nah-na-BpLA-dlya-derzhkompan%D1%96j-07-29. According to the investigation, Oleksandr Konotopskyi is engaged in the supply of electronic equipment. 96% of the orders of one of his companies are contracts of the Ministry of Defense, the Ministry of Internal Affairs, local authorities. And the most interesting thing is drones: Vampire and Shrike UAVs, for which an organized group inflated prices by billions. Only from the beginning of 2025 to March 2026, almost 60 billion hryvnias were received through one company! And the schemes are simple: they took billion-dollar tenders from the hands of corrupt "friends in positions", inflated prices in some places by more than 6 times the market price, the "friends in positions" did not notice this and billions (!) ended up in their pockets.

Also, on 06.06.2026 and 06.22.2026, facts of corruption regarding drones were published - https://week.ukrainianwall.com/161979-milyardi-na-dronah-i-susidi-generali-rf-skandalniy-biznes-konotopskogo-v-dubaji and https://rozsliduvach.info/news/257397-piclja_vikrittja_bagatomiljjonnoji_koruptsijnoji_oborudki_z_dronami_dlja_zsu_kontrabandist_sejar_kurshutov_namagajetjsja_zachistiti_informatsijnij_prostir. Ukrainian businessman Oleksandr Konotopsky, through the company "Stream Techno", Ajax Systems, LLC "AS MANUFACTURING" and others, earns billions on the purchase and sale of drones, effectively monopolizing this market in Ukraine, since he wins over 40% of government orders - through closed contracts and without any competition. Then the billions, allegedly earned honestly, are withdrawn through the offshore companies Ajax Systems Cyprus Holdings Ltd (Cyprus) and Ajax Systems Trading DMCC (United Arab Emirates). Ukrainian businessman Konotopsky himself, who earns billions on the supply of drones, lives in Dubai. Also, Oleksandr Konotopsky, oddly enough and by coincidence, since June 27, 2025, in accordance with Decree No. 421/2025, has been a member of the Entrepreneurship Support Council - an advisory and consultative body under the President of Ukraine Volodymyr Zelensky - https://zakon.rada.gov.ua/laws/show/268/2026#n2.

Yes, according to a sensational article in the publication The Economist - https://www.economist.com/europe/2026/07/16/ukraines-reformist-defence-minister-is-ousted - Ukraine's reformist defence minister is ousted, former Ukrainian Defense Minister Mykhailo Fedorov conducted an audit that revealed 300 billion hryvnia ($6.6 billion) in weapons procurement abuses and other unpleasant facts! And this has just become public, and we are being told about even more corruption and abuse!

Also, on July 7, 2026, the State Bureau of Investigation and the Prosecutor General's Office conducted large-scale searches at one of the largest Ukrainian manufacturers of FPV drones, Vyriy Industries. Law enforcement officers are investigating a possible artificial overestimation of the cost of drones under state contracts by almost 7 billion hryvnias and the use of fictitious entrepreneurs - https://texty.org.ua/fragments/117820/dbr-proty-odnoho-z-najbilshyx-vyrobnykiv-droniv-shcho-vidomo-pro-spravu-vyriy-industries/ According to the investigation, in 2025, the specified private enterprise concluded state contracts with the State Enterprise of the Ministry of Defense of Ukraine "Defense Procurement Agency" for the supply of drones of various types and modifications for a total amount of 7 billion with prematurely inflated

prices. Subsequently, the funds were withdrawn into cryptocurrency and offshore zones through more than 150 individual entrepreneurs.

The Ukrainian and global information space was shaken by a new anti-corruption investigation by investigative bodies in Ukraine, namely the fact that on May 11, 2026, Andriy Yermak, the former head of the Office of the President of Ukraine, the right-hand man and friend of President Volodymyr Zelensky, was charged with a particularly serious crime - money laundering through an elite development in the suburbs of the Ukrainian capital. The former head of the Office of the President appears in the case of legalization of 460 million hryvnias - https://www.dw.com/uk/eksgolovi-ofisu-prezidenta-ermaku-povidomili-pro-pidozru/a-77125932, namely, Andriy Yermak was informed of suspicion of legalization of property obtained by criminal means as part of an organized group of real and, probably, hidden investors and managers of the construction of the elite residential complex "Dynasty" in the village of Kozyn near Kyiv.

Also, without an investigation and a court decision, the Decrees of the President of Ukraine Volodymyr Zelensky, starting in 2022, introduced groundless and illegal sanctions against tens of thousands of citizens and legal entities who are Ukrainians, which is a blatant violation of international law! The above is nothing more than purely political repression and suppression of freedom of speech in Ukraine.

Unfortunately, in March 2026, the President of Ukraine Volodymyr Zelenskyy threatened members of the Ukrainian Parliament with, in our opinion, illegal mobilization into the Armed Forces of Ukraine to vote for all bills that he considers necessary. Our team is aware of the implementation of such threats by the President of Ukraine Volodymyr Zelenskyy, since, as we previously reported, in December 2025, Oleksiy Yakubin, a member of the International Political Science Association and our authorized representative of the NGO "Legal Equality" in international missions, was illegally detained by police officers and military personnel, and later, after being illegally detained in an incomprehensible building for over 50 hours by military personnel who exerted moral pressure on him and inflicted bodily harm on him, he was later released without explanation of the reasons and the absence of any procedural documents for such detention.

In March 2026, the Accounting Chamber of Ukraine revealed violations worth 77 billion hryvnias in the procurement of drones for the Armed Forces of Ukraine - https://sud.ua/uk/news/ukraine/357254-schetnaya-palata-vyyavila-narusheniya-na-77-milliardov-griven-v-zakupkakh-bespilotnikov-dlya-vsu. Most contracts were concluded with violations, price overpricing and supply problems were identified. The Verkhovna Rada Committee on National Security, Defense and Intelligence reviewed the report of the Accounting Chamber on the audit of the procurement of unmanned systems for the needs of the Armed Forces of Ukraine and fully supported the recommendations provided.

Also, unfortunately, at present, countries such as the State of Israel, the Swiss Confederation, the Federal Republic of Germany, and the Republic of Austria allow corrupt individuals from Ukraine to hide in their countries, even if they are wanted, which we consider unacceptable! New facts of high-level corruption are blatant - after an attempt to flee Ukraine, former Energy Minister Herman Galushchenko, a partner of Ukrainian President Volodymyr Zelensky, was detained at the border and received suspicion from the NABU in the "Midas" case on February 16, 2026 - https://www.bbc.com/ukrainian/articles/cvg8m91dl8eo The individual in question is Herman Halushchenko, who at various times headed the Ministry of Energy and, subsequently, the Ministry of Justice. According to the investigation, in February 2021, members of a criminal

organization—figures involved in the "Midas" case, which was uncovered by the NABU and the SAPO in November 2025—registered a fund on the island of Anguilla (a self-governing British Overseas Territory) designed to attract approximately $100 million in "investments." Halushchenko's family was among these "investors." It is alleged that, in order to conceal the Minister's involvement, two companies were established in the Marshall Islands and incorporated into the structure of a trust registered in Saint Kitts and Nevis. Halushchenko's ex-wife and his four children were named as the beneficiaries of these companies. The criminal organization obtained over $112 million in cash through illicit activities within the energy sector. Investigators assert that, with Halushchenko's assistance, Mindich and Myroniuk controlled financial flows within Ukraine's gas and energy sectors under the direction of Andriy Yermak, the former Head of the Office of the President of Ukraine.

Shocking and truthful journalistic investigation from 06.02.2026 – The Godfather "at a distance". How "Ukrainian Pravda" found Andriy Yermak – https://www.rbc.ua/rus/news/zhurnalisti-rozkrili-chim-zaymaetsya-ermak-1770388674.html and https://www.youtube.com/watch?v=NVf0HXlVKbY According to the investigation, the former head of the Office of the President of Ukraine Andriy Yermak continues to influence high-ranking Ukrainian officials, summoning them to his office, which is located 500 meters from the Office of the President of Ukraine. Those involved in the investigation, in addition to Andriy Yermak himself, personally confirmed the details of such meetings, and Yermak's lawyer confirmed such a trip to the state of Israel together with the Ukrainian ambassador.

As we reported earlier, on January 21, 2026, the National Anti-Corruption Bureau reported suspicions to a number of individuals, including Rostyslav Shurma, a business partner of President Volodymyr Zelensky and former deputy of Andriy Yermak as head of the Office of the President of Ukraine – https://www.unian.ua/politics/zaroblyali-na-ob-yektah-na-okupovaniy-teritoriji-nabu-ogolosili-pro-pidozru-shurmi-13262019.html and https://bihus.info/rostyslav-shurma-otrymav-pidozru-vid-nabu-ta-sap-u-shemi-z-zelenym-taryfom-yaku-vykryly-bihus-info/ Subsequently, on April 21, 2026, the Supreme Anti-Corruption Court of Ukraine in absentia chose a preventive measure in the form of detention for the two aforementioned persons and granted permission for their detention by law enforcement officers! Currently, President Vodomyr Zelensky's ally and corruption suspect Rostyslav Shurma, together with his brother-accomplice, are hiding in the Federal Republic of Germany, as he himself has repeatedly confirmed!

All suspects, according to journalistic investigations, especially the comrade of the President of Ukraine Timur Mindich, are hiding in the State of Israel, and their funds are hidden in various financial havens and stable countries, such as Switzerland, Luxembourg and Liechtenstein. As we previously reported, the information published on August 29, 2025 that the National Anti-Corruption Bureau of Ukraine is investigating ties between the manufacturer of the Flamingo cruise missile and the Mindich company, which turned out to be the largest supplier to the Ministry of Defense, also caused widespread public outrage – https://kyivindependent.com/exclusive-maker-of-ukraines-prized-flamingo-cruise-missile-facing-corruption-probe/?fbclid=IwY2xjawMebXVleHRuA2FlbQIxMABicmlkETFDajdqMUx0TUlqbFcyWWJuAR6AhrYuRoVL6gCdfVFdVGz25FGLk2TXuAtH-URCJhe-yX008R2HxK0l0i4BYA_aem_mEZFuPTw6qEb-7jL-GCl4A and – https://censor.net/biz/news/3571190/nabu-rozsliduye-zv-yazok-vyrobnyka-raket-flamingo-z-mindichem. The real owner of Fire Point may be President Volodymyr Zelensky's friend and co-founder of the Kvartal 95 studio, Timur Mindich. Unfortunately, this does not surprise us,

because the journalistic investigation of 07/30/2025 proves how Timur Mindich, the curator of subsoil in Ukraine, lives - a confidant of Volodymyr Zelensky and Andriy Yermak - and where the President of Ukraine himself often visited - EARNING OF MINDICH'S APARTMENT: "ZELENSKIY'S VACATION and GOLDEN TOILET. This is where the list of the "Servant of the People" faction to the Verkhovna Rada of Ukraine was formed" - https://www.youtube.com/watch?v=gV0mnQJX6vs.

Journalistic investigation dated 04/28/2025 - https://parlament.ua/ru/news/glavu-odesskoj-oblastnoj-voennoj-administraczii-olega-kipera-podozrevayut-v-vyvode-aktivov-za-graniczu/ - The head of the Odessa Regional Military Administration, Oleg Kiper, is suspected of taking assets abroad! As we previously reported, the head of the Kyiv City Prosecutor's Office, Kiper O.O., was simultaneously appointed head of the Odessa Regional State Administration on May 30, 2023, under the "secondment" procedure. For almost three years, one person held two unrelated positions, cynically using the legal regime of martial law. He was dismissed from the post of head of the Kyiv Prosecutor's Office only in December 2025 and after our numerous appeals! It is no secret that Kiper has very friendly relations with the former head of the Office of the President of Ukraine Andriy Yermak and the deputy head of the Office of the President Oleg Tatarov.

In conclusion, we ask you to end the diplomatic silence, to publicly disseminate the facts set forth in this appeal, in order to stop the destruction of the rule of law in Ukraine, as well as the brazen corruption at the highest level by the Ukrainian authorities, which are already showing signs of usurping power and halting democratic processes!

Sincerely yours,
Head of the organization **Sergey Kornelyuk**

October 28, 2026

ALL-UKRAINIAN PUBLIC ORGANISATION
"LEGAL EQUALITY"

To the Members
of the States General
of the Kingdom of the Netherlands

Distinguished Members
of the States General of the Kingdom of the Netherlands!

First of all, for 1700 days of terrible and brutal war, we want to sincerely thank You, Your Country and the People of the Kingdom of the Netherlands for helping the Ukrainians and the state of Ukraine in this difficult time of unprovoked armed aggression by Russia!

We would like to emphasize and draw your attention to the fact that the information and facts that are systematically presented in the world media are the honest truth and realities of modern Ukraine, no matter how Volodymyr Zelensky tries to justify himself, his inner circle and subordinates continue to profit from corruption and behave brazenly, and in Ukraine itself, the rule of law is completely collapsing!

Although our organization's team, its leader, and its Honorary Chairman—attorney Yaroslav Zakharchenko—have faced and continue to face threats (notably from the Office of the President of Ukraine, the Security Service of Ukraine, and the State Bureau of Investigation) due to our persistent appeals to you—the international community—regarding high-level corruption and lawlessness in Ukraine, we will not be silenced by such tactics! It is deeply distressing that international partners, through their silence, are effectively turning a blind eye to high-level corruption in Ukraine involving government officials—specifically, the inner circle of Ukrainian President Volodymyr Zelenskyy. **Silence kills! Do not remain silent—it only makes the situation worse!**

The Constitution of Ukraine provides clear answers regarding the term of office of the President of Ukraine and the possibility of holding elections: https://zakon.rada.gov.ua/laws/show/254%D0%BA/96-%D0%B2%D1%80#Text.

According to Article 103 of the Constitution, the President of Ukraine is elected by the citizens of Ukraine for a five-year term. Article 108 outlines the grounds for the termination of the President's powers. Article 109 stipulates that the resignation of the President of Ukraine takes effect from the moment the President personally announces their resignation at a session of the Verkhovna Rada of Ukraine. Under the requirements of Article 112, in the event of the early termination of the President's powers, the duties of the President of Ukraine are assumed by the Chairman of the Verkhovna Rada of Ukraine.

An analysis of the provisions of the Constitution of Ukraine reveals that there is no explicit prohibition against holding elections during martial law. Anyone claiming otherwise is either deliberately stating an untruth or is unfamiliar with the provisions of Ukraine's supreme law. The only obstacle is Article 19 of the Law of Ukraine "On the Legal Regime of Martial Law" (https://zakon.rada.gov.ua/laws/show/389-19#Text)—a legal instrument that holds a lower status than the Constitution! In its Decision No. 5-

rp/2014 of May 15, 2014, the Constitutional Court of Ukraine clarified that the term of office of the President of Ukraine is 5 years (https://zakon.rada.gov.ua/laws/show/v005p710-14#Text); **this five-year term is the sole constitutionally established term for which the President of Ukraine is elected—without any exceptions whatsoever!**

According to recent surveys of Ukrainian citizens, the issues of greatest concern to respondents are corruption within the government (50%) and large-scale missile and drone attacks (40%) - https://interfax.com.ua/news/general/1210873-amp.html, https://www.kiis.com.ua/?lang=ukr&cat=reports&id=1636&page=1. Other top concerns include a lack of professionalism and incompetence among government officials (30%), low wages and pensions (28%), the activities of the Territorial Recruitment Centers (TCCs) (24%), rising prices (23%), and the situation at the front (21%). Other issues were cited less frequently. These findings come from a survey conducted in September 2026 by the Kyiv International Institute of Sociology. Furthermore, a total of 64% of respondents identified either "corruption within the government" or "incompetence of the government" as a concern. In other words, when comparing the factor of the war against the factor of dissatisfaction with the government (due to corruption or incompetence), the latter was mentioned somewhat more frequently. Respondents were also asked whether Ukrainian President Volodymyr Zelenskyy bears personal responsibility for the corrupt actions of his inner circle. The majority of Ukrainians—72%—assert that President Volodymyr Zelenskyy bears personal responsibility for the corrupt actions of his inner circle, while 25% do not believe he bears such responsibility, the report states.

On October 28, 2026, former Prosecutor General of Ukraine Ruslan Kravchenko stated that unlawful, violent actions were being prepared against him in the Republic of Austria, involving military personnel from the Main Directorate of Intelligence of the Ministry of Defence of Ukraine. Anti-corruption bodies and the Office of the President of Ukraine are also allegedly involved in this - https://www.dw.com/uk/kravcenko-zvinuvativ-gur-nabu-i-op-u-pidgotovci-nasilnickih-dij-proti-nogo/a-79785528. Unfortunately, our Organization is not surprised by Mr. Kravchenko's statements, as the very same things have been—and are currently being—directed against us, albeit covertly!

Particularly egregious are the actions taken by the NABU on October 21, 2026, at the workplace and residence of the Governor of the National Bank of Ukraine, Andriy Pyshnyy, as well as, specifically, the grounds upon which these actions were carried out - https://forbes.ua/money/obsuki-nabu-u-pisnogo-21102026-43163, https://youtu.be/YOHSs5QerGc?si=nwfhiX9pbaZUVrAT, https://censor.net/ua/news/4029558/obshuky-u-golovy-nbu-andriya-pyshnogo-nabu-ta-sap-provodyat-slidchi-diyi. The searches relate to the situation surrounding the "KarpatNaftoKhim" plant and the management of Sense Bank by third parties. Investigators were searching for documents concerning the unique state-owned chemical enterprise "KarpatNaftoKhim" and its joint dealings with the late Ivanchuk and the aforementioned Veselyi. According to the investigation, the crux of the matter is that a stake in the plant served as an illicit benefit for officials within the Office of the Prosecutor General (OPG), ARMA (Asset Recovery and Management Agency), and the Office of the President. No formal notices of suspicion have been issued to anyone yet.

How the 2022 case was dismantled: According to the investigation, the plant—linked to Lukoil—transferred over UAH 5 billion to the Russian Federation. A court seized 100% of the assets, only to subsequently lift the seizure. The OPG transferred the case to a district police department in the Mykolaiv region. The Bratske District Court transferred the plant to ARMA, yet ARMA never actually took possession of the property. The investigation was halted. On December 6, 2023, the seizure was lifted. On December 1, 2023, a 33% stake in the plant—with a statutory value of UAH 765 million—was transferred to the "Herion World" fund, owned by Andriy Veselyi, a sole proprietor from Drohobych. The investigation notes this occurred "without actual payment." Since November 2024, his brother, Vasyl, has served as the Chairman of the plant's Supervisory Board, and as of 2024, he has also served as an advisor to the Supervisory Board of the state-owned Sense Bank. According to the testimonies of two witnesses, the sequence of events unfolded as follows: MP Ivanchuk, acting as a representative for the owners, sought to resolve the plant's issues. He reached out to the Governor of the National Bank of Ukraine (NBU), Pyshnyi—a former university classmate and fellow faction member. Subsequently, Ivanchuk instructed the owners that, to unblock the plant's operations, they had to transfer a stake to Vasyl Veselyi. Veselyi is "closely linked" to the Office of the President (OP) and Pyshnyi. Furthermore, Pyshnyi and Yermak have been co-founders of the NGO "Vidchu" (Feel) since 2011. Meanwhile, the plant itself is currently undergoing bankruptcy proceedings. A Cypriot entity named Fanlo—flagged with the label "Trace of Russia"—has filed claims amounting to 92% of the total debt (40 billion UAH). This "debt" was actually written off by Lukoil back in 2016, only to be transferred to Fanlo in 2017. Amidst the bankruptcy, a shipment of gasoline worth $6 million was dispatched to Dubai, with only $0.64 million paid. Outstanding wage arrears have reached 230 million UAH, while debts owed to the Kalush municipal budget stand at 239 million UAH. We also uncovered a highly intriguing connection between the bankruptcy trustee and... none other than the aforementioned Veselyi! On October 1, 2026, the parliamentary Temporary Investigative Commission (TIC) voted to issue a compulsory summons for Veselyi, who had made an urgent departure from the country on June 18 and has yet to return. Additionally, on September 24, criminal proceedings were initiated regarding potential false testimony given by Pyshnyi before the TIC. In short: a portion of the plant was signed over to Yermak's "overseer" (proxy) to prevent the entire facility from being seized, confiscated, or transferred to ARMA (the Asset Recovery and Management Agency).

According to our preliminary data, the program of the President of Ukraine Volodymyr Zelensky – Drone Deal – may also become a hotbed of corruption in Ukraine and on a global scale, only companies close to the government participate in it! This is already confirmed by a number of journalistic and law enforcement investigations into corruption and deliberate overpricing of drone purchases, especially within the framework of Ukrainian state orders, at the expense of international partners. **A major new investigation by international media serves as striking confirmation of this – «In Ukraine, fraud and waste are rewarded with more arms supply contracts» - https://www.nytimes.com/2026/09/06/world/europe/ukraine-war-weapons-fraud-corruption.html.** Secret military audits have revealed that the defense procurement system is riddled with instances of mismanagement. In 2024 alone, Ukraine lost $1.2 billion due to fraud and the inefficient use of funds. Companies secured contracts without demonstrating

their capacity to supply weaponry and without possessing the necessary licenses to do so. Auditors identified 18 companies that entered into agreements despite having failed to fulfill previous obligations; six of these companies failed to execute a single contract. President Zelenskyy has been unable to bring order to the procurement system, and the issues have reached even his inner circle. A Turkish manufacturer, Arca Defense, offered the lowest price, proposing direct shipments from the factory. However, auditors discovered that the contract was awarded to the bidder with the highest price—a subsidiary of the major Czech holding company, Czechoslovak Group. Instead of making a direct purchase, the government opted to pay the Czech company, which acted as an intermediary.

Head of an Office of the Prosecutor General unit organized "protection" for fraudulent call centers - NABU - https://www.pravda.com.ua/news/2026/09/05/8052022/ and https://www.nytimes.com/2026/09/16/world/europe/ukraine-corruption.html NABU and the SAPO have announced the exposure of a criminal organization allegedly led by a senior official from a structural unit of the Prosecutor General's Office. Its members are suspected of systematically accepting bribes from fraudulent call centers and laundering assets. **Subsequently, the now-former Prosecutor General Ruslan Kravchenko fled Ukraine under the guise of a purported official trip to PACE and, according to preliminary information, is currently hiding in the Republic of Austria (Vienna).**

NABU and the SAPO are conducting a special operation, codenamed "Forrest Gump," to expose a criminal organization that operated under the direction of high-ranking officials within the Office of President Volodymyr Zelenskyy, along with other individuals. According to preliminary findings by investigative authorities and evidence already made public, the current administration's new motto in Ukraine is: "Defeating corruption is a misguided approach. It needs to be systematized and controlled."

Since the start of the full-scale war, Ukraine has received $200 billion in direct budget funding and over $200 billion in military assistance (weapons and equipment) from international partners (over 50 countries). In total, total support from allies exceeds $400 billion (according to official data from the National Bank, the Ministry of Finance, and the President of Ukraine), not including other expenses such as humanitarian aid!

A new anti-corruption investigation by Ukrainian law enforcement agencies—NABU and the SAPO - is truly staggering in its audacity: bags of cash, security personnel from the Defence Intelligence of Ukraine (HUR), and Davyd Arakhamia. Here is what is known about the new NABU recordings: https://epravda.com.ua/power/plivki-nabu-shcho-vidomo-pro-operaciyu-forest-gamp-824776/index.amp, https://www.pravda.com.ua/news/2026/08/19/8049261/index.amp, https://www.pravda.com.ua/columns/2026/08/19/8049314/index.amp. On August 19, detectives from the National Anti-Corruption Bureau (NABU) conducted searches in the office of a Deputy Head of the Office of the President (OP) and at the headquarters of Sense Bank. Law enforcement officials dubbed this special operation "Forrest Gump." It concerns the posting of 150 million hryvnias in bail for a figure involved in the "Midas" case—former Minister of Energy and Justice Herman Halushchenko. According to NABU, in early June 2026, high-ranking officials from the Office of the President gained de facto control over the state-owned Sense Bank. One of these officials is Iryna Mudra, a former

Deputy Head of the Office of the President of Ukraine. According to a woman whose voice resembles Mudra' s, an "Israeli refugee named Timur" called her superior and requested that the Office of the President take control of Sense Bank. "Timur" claimed that "financial flows" and "serious money" were moving through Sense Bank. According to this high-ranking official from the Office of the President, the next individuals slated to take over the management of the state-owned bank were likely "David" and a person whom NABU refers to as the "head of a Verkhovna Rada committee." This likely refers to Davyd Arakhamia, head of the "Servant of the People" faction, and Danylo Hetmantsev, head of the Verkhovna Rada Finance Committee.

Corruption investigation (and it only uses drones) - https://telegra.ph/Etalonne-krad%D1%96vnictvo-yak-Konotopskij-zaroblyaye-na-skazhenih-c%D1%96nah-na-BpLA-dlya-derzhkompan%D1%96j-07-29. According to the investigation, Oleksandr Konotopskyi is engaged in the supply of electronic equipment. 96% of the orders of one of his companies are contracts of the Ministry of Defense, the Ministry of Internal Affairs, local authorities. And the most interesting thing is drones: Vampire and Shrike UAVs, for which an organized group inflated prices by billions. Only from the beginning of 2025 to March 2026, almost 60 billion hryvnias were received through one company! And the schemes are simple: they took billion-dollar tenders from the hands of corrupt "friends in positions", inflated prices in some places by more than 6 times the market price, the "friends in positions" did not notice this and billions (!) ended up in their pockets.

Also, on 06.06.2026 and 06.22.2026, facts of corruption regarding drones were published - https://week.ukrainianwall.com/161979-milyardi-na-dronah-i-susidi-generali-rf-skandalniy-biznes-konotopskogo-v-dubaji and https://rozsliduvach.info/news/257397-piclja_vikrittja_bagatomiljjonnoji_koruptsijnoji_oborudki_z_dronami_dlja_zsu_kontrabandist_sejar_kurshutov_namagajetjsja_zachistiti_informatsijnij_prostir. Ukrainian businessman Oleksandr Konotopsky, through the company "Stream Techno", Ajax Systems, LLC "AS MANUFACTURING" and others, earns billions on the purchase and sale of drones, effectively monopolizing this market in Ukraine, since he wins over 40% of government orders - through closed contracts and without any competition. Then the billions, allegedly earned honestly, are withdrawn through the offshore companies Ajax Systems Cyprus Holdings Ltd (Cyprus) and Ajax Systems Trading DMCC (United Arab Emirates). Ukrainian businessman Konotopsky himself, who earns billions on the supply of drones, lives in Dubai. Also, Oleksandr Konotopsky, oddly enough and by coincidence, since June 27, 2025, in accordance with Decree No. 421/2025, has been a member of the Entrepreneurship Support Council - an advisory and consultative body under the President of Ukraine Volodymyr Zelensky - https://zakon.rada.gov.ua/laws/show/268/2026#n2.

Yes, according to a sensational article in the publication The Economist - https://www.economist.com/europe/2026/07/16/ukraines-reformist-defence-minister-is-ousted - Ukraine's reformist defence minister is ousted, former Ukrainian Defense Minister Mykhailo Fedorov conducted an audit that revealed 300 billion hryvnia ($6.6 billion) in weapons procurement abuses and other unpleasant facts! And this has just become public, and we are being told about even more corruption and abuse!

Also, on July 7, 2026, the State Bureau of Investigation and the Prosecutor General's Office conducted large-scale searches at one of the largest Ukrainian

manufacturers of FPV drones, Vyriy Industries. Law enforcement officers are investigating a possible artificial overestimation of the cost of drones under state contracts by almost 7 billion hryvnias and the use of fictitious entrepreneurs - https://texty.org.ua/fragments/117820/dbr-proty-odnoho-z-najbilshyx-vyrobnykiv-droniv-shcho-vidomo-pro-spravu-vyriy-industries/ According to the investigation, in 2025, the specified private enterprise concluded state contracts with the State Enterprise of the Ministry of Defense of Ukraine "Defense Procurement Agency" for the supply of drones of various types and modifications for a total amount of 7 billion with prematurely inflated prices. Subsequently, the funds were withdrawn into cryptocurrency and offshore zones through more than 150 individual entrepreneurs.

The Ukrainian and global information space was shaken by a new anti-corruption investigation by investigative bodies in Ukraine, namely the fact that on May 11, 2026, Andriy Yermak, the former head of the Office of the President of Ukraine, the right-hand man and friend of President Volodymyr Zelensky, was charged with a particularly serious crime - money laundering through an elite development in the suburbs of the Ukrainian capital. The former head of the Office of the President appears in the case of legalization of 460 million hryvnias - https://www.dw.com/uk/eksgolovi-ofisu-prezidenta-ermaku-povidomili-pro-pidozru/a-77125932, namely, Andriy Yermak was informed of suspicion of legalization of property obtained by criminal means as part of an organized group of real and, probably, hidden investors and managers of the construction of the elite residential complex "Dynasty" in the village of Kozyn near Kyiv.

Also, without an investigation and a court decision, the Decrees of the President of Ukraine Volodymyr Zelensky, starting in 2022, introduced groundless and illegal sanctions against tens of thousands of citizens and legal entities who are Ukrainians, which is a blatant violation of international law! The above is nothing more than purely political repression and suppression of freedom of speech in Ukraine.

Unfortunately, in March 2026, the President of Ukraine Volodymyr Zelenskyy threatened members of the Ukrainian Parliament with, in our opinion, illegal mobilization into the Armed Forces of Ukraine to vote for all bills that he considers necessary. Our team is aware of the implementation of such threats by the President of Ukraine Volodymyr Zelenskyy, since, as we previously reported, in December 2025, Oleksiy Yakubin, a member of the International Political Science Association and our authorized representative of the NGO "Legal Equality" in international missions, was illegally detained by police officers and military personnel, and later, after being illegally detained in an incomprehensible building for over 50 hours by military personnel who exerted moral pressure on him and inflicted bodily harm on him, he was later released without explanation of the reasons and the absence of any procedural documents for such detention.

In March 2026, the Accounting Chamber of Ukraine revealed violations worth 77 billion hryvnias in the procurement of drones for the Armed Forces of Ukraine - https://sud.ua/uk/news/ukraine/357254-schetnaya-palata-vyyavila-narusheniya-na-77-milliardov-griven-v-zakupkakh-bespilotnikov-dlya-vsu. Most contracts were concluded with violations, price overpricing and supply problems were identified. The Verkhovna Rada Committee on National Security, Defense and Intelligence reviewed the report of the Accounting Chamber on the audit of the procurement of unmanned systems for the needs of

the Armed Forces of Ukraine and fully supported the recommendations provided.

Also, unfortunately, at present, countries such as the State of Israel, the Swiss Confederation, the Federal Republic of Germany, and the Republic of Austria allow corrupt individuals from Ukraine to hide in their countries, even if they are wanted, which we consider unacceptable! New facts of high-level corruption are blatant - after an attempt to flee Ukraine, former Energy Minister Herman Galushchenko, a partner of Ukrainian President Volodymyr Zelensky, was detained at the border and received suspicion from the NABU in the "Midas" case on February 16, 2026 - https://www.bbc.com/ukrainian/articles/cvg8m91dl8eo The individual in question is Herman Halushchenko, who at various times headed the Ministry of Energy and, subsequently, the Ministry of Justice. According to the investigation, in February 2021, members of a criminal organization—figures involved in the "Midas" case, which was uncovered by the NABU and the SAPO in November 2025—registered a fund on the island of Anguilla (a self-governing British Overseas Territory) designed to attract approximately $100 million in "investments." Halushchenko's family was among these "investors." It is alleged that, in order to conceal the Minister's involvement, two companies were established in the Marshall Islands and incorporated into the structure of a trust registered in Saint Kitts and Nevis. Halushchenko's ex-wife and his four children were named as the beneficiaries of these companies. The criminal organization obtained over $112 million in cash through illicit activities within the energy sector. Investigators assert that, with Halushchenko's assistance, Mindich and Myroniuk controlled financial flows within Ukraine's gas and energy sectors under the direction of Andriy Yermak, the former Head of the Office of the President of Ukraine.

Shocking and truthful journalistic investigation from 06.02.2026 – The Godfather "at a distance". How "Ukrainian Pravda" found Andriy Yermak – https://www.rbc.ua/rus/news/zhurnalisti-rozkrili-chim-zaymaetsya-ermak-1770388674.html and https://www.youtube.com/watch?v=NVf0HXlVKbY According to the investigation, the former head of the Office of the President of Ukraine Andriy Yermak continues to influence high-ranking Ukrainian officials, summoning them to his office, which is located 500 meters from the Office of the President of Ukraine. Those involved in the investigation, in addition to Andriy Yermak himself, personally confirmed the details of such meetings, and Yermak's lawyer confirmed such a trip to the state of Israel together with the Ukrainian ambassador.

As we reported earlier, on January 21, 2026, the National Anti-Corruption Bureau reported suspicions to a number of individuals, including Rostyslav Shurma, a business partner of President Volodymyr Zelensky and former deputy of Andriy Yermak as head of the Office of the President of Ukraine – https://www.unian.ua/politics/zaroblyali-na-ob-yektah-na-okupovaniy-teritoriji-nabu-ogolosili-pro-pidozru-shurmi-13262019.html and https://bihus.info/rostyslav-shurma-otrymav-pidozru-vid-nabu-ta-sap-u-shemi-z-zelenym-taryfom-yaku-vykryly-bihus-info/ Subsequently, on April 21, 2026, the Supreme Anti-Corruption Court of Ukraine in absentia chose a preventive measure in the form of detention for the two aforementioned persons and granted permission for their detention by law enforcement officers! Currently, President Vodomyr Zelensky's ally and corruption suspect Rostyslav Shurma, together with his brother-accomplice, are hiding in the Federal

Republic of Germany, as he himself has repeatedly confirmed!

All suspects, according to journalistic investigations, especially the comrade of the President of Ukraine Timur Mindich, are hiding in the State of Israel, and their funds are hidden in various financial havens and stable countries, such as Switzerland, Luxembourg and Liechtenstein. As we previously reported, the information published on August 29, 2025 that the National Anti-Corruption Bureau of Ukraine is investigating ties between the manufacturer of the Flamingo cruise missile and the Mindich company, which turned out to be the largest supplier to the Ministry of Defense, also caused widespread public outrage – https://kyivindependent.com/exclusive-maker-of-ukraines-prized-flamingo-cruise-missile-facing-corruption-probe/?fbclid=IwY2xjawMebXVleHRuA2FlbQIxMABicmlkETFDajdqMUx0TUlqbFcyWWJuAR6AhrYuRoVL6gCdfVFdVGz25FGLk2TXuAtH-URCJhe-yX008R2HxK0l0i4BYA_aem_mEZFuPTw6qEb-7jL-GCl4A and – https://censor.net/biz/news/3571190/nabu-rozsliduye-zv-yazok-vyrobnyka-raket-flamingo-z-mindichem. The real owner of Fire Point may be President Volodymyr Zelensky's friend and co-founder of the Kvartal 95 studio, Timur Mindich. Unfortunately, this does not surprise us, because the journalistic investigation of 07/30/2025 proves how Timur Mindich, the curator of subsoil in Ukraine, lives - a confidant of Volodymyr Zelensky and Andriy Yermak - and where the President of Ukraine himself often visited - EARNING OF MINDICH'S APARTMENT: "ZELENSKIY'S VACATION and GOLDEN TOILET. This is where the list of the "Servant of the People" faction to the Verkhovna Rada of Ukraine was formed" - https://www.youtube.com/watch?v=gV0mnQJX6vs.

Journalistic investigation dated 04/28/2025 - https://parlament.ua/ru/news/glavu-odesskoj-oblastnoj-voennoj-administraczii-olega-kipera-podozrevayut-v-vyvode-aktivov-za-graniczu/ - The head of the Odessa Regional Military Administration, Oleg Kiper, is suspected of taking assets abroad! As we previously reported, the head of the Kyiv City Prosecutor's Office, Kiper O.O., was simultaneously appointed head of the Odessa Regional State Administration on May 30, 2023, under the "secondment" procedure. For almost three years, one person held two unrelated positions, cynically using the legal regime of martial law. He was dismissed from the post of head of the Kyiv Prosecutor's Office only in December 2025 and after our numerous appeals! It is no secret that Kiper has very friendly relations with the former head of the Office of the President of Ukraine Andriy Yermak and the deputy head of the Office of the President Oleg Tatarov.

In conclusion, we ask you to end the diplomatic silence, to publicly disseminate the facts set forth in this appeal, in order to stop the destruction of the rule of law in Ukraine, as well as the brazen corruption at the highest level by the Ukrainian authorities, which are alre[redacted] and halting democratic processes!

5.1.2.e

Sincerely yours,
Head of the organization **Kornelyuk**

October 28, 2026
